JESUS NUNEZ DIAZ

S3874205@student.fscj.edu

PROFESSIONAL SUMMARY

Accomplished professional with over 10 years of exemplary performance in aviation operations within the U.S. Military. Earned four promotions and consistently excelled as both a team player and leader, always assuming leadership roles among peers. Known for accountability and ambition, maintaining focus and productivity in demanding situations. Possesses extensive experience in training, administration, and operating advanced computer training systems.

CORE COMPETENCIES

- Navy Training Instructor
- Learning Platforms
- Instructional Delivery
- Microsoft 365
- Standardization
- Training Database Management

PROFESSIONAL EXPERIENCE

Contract Instructor AAW • XXXX. • 12 November 2024 – Present

- Instructs high-fidelity flight simulators and delivers comprehensive lectures to Fleet Replacement Squadron (FRS) students, directly enhancing tactical readiness and operational proficiency.
- Manages comprehensive mission planning for diverse flight operations, effectively bridging the gap between rigorous training scenarios and real-world mission application.
- Reviews and updates curriculum materials and operational topics to maintain strict alignment with Navy training standards and evolving fleet requirements.
- Mentors and develops next-generation aircrew, providing critical performance evaluations and refining instructional methods to prepare students for high-stress operational environments.

Previous Employer • US NAVY. • August 2016 – May 2024

- Managed Training Department operations, directing squadron-level training programs, writing daily flight schedules, and administering tactical examinations to maintain department readiness.
- Operated advanced airborne sensor systems to detect, analyze, and track surface and subsurface contacts during global tactical flight operations.
- Managed high-security operational logistics, enforcing strict classified material handling procedures, and total accountability for sensitive tactical data and department intelligence products.
- Collaborated with cross-functional teams to brief/debrief mission objectives, test system functionality, and document technical discrepancies for engineering resolution.

Jesus NunezDiaz • 1111 Street, Acity, Astate, Azipcode • Cell: 904 685 1446 • S3874205@students.fscj.edu

United States Navy – Multiple Positions • August 2016 - 2026

- Training Department Leading Petty Officer, VP-10 – Managed training shop operations and schedules, directing the qualification pipeline and tactical exams to upgrade junior operators.
- Operations Department, VP-10 – Orchestrated daily flight schedules and mission readiness, managing crew resources and tactical assets to execute global airborne operations.
- AWO Department Assistant Leading Petty Officer, VP-10 – Directed the qualification and upgrade pipeline for junior operators, tracking technical milestones and instructional progress to accelerate fleet integration.
- Operations Department, VP-30 SAU – Executes airborne tactical missions while mastering foundational instruction, hardwiring core sensor operations, flight safety basics, and fundamental systems architecture into brand-new aircrew.
